EXPERIENCE

LSU AgCenter

Baton Rouge, LA

IT Help Desk

February 2025 - Present

- Resolved technical issues for 50+ faculty and staff weekly across phone, email, and walk-in channels, maintaining a high first-contact resolution rate.
- Logged, tracked, and documented service tickets in an internal ticketing system to ensure timely follow-up and accountability.
- Communicated complex technical issues in plain language to non-technical users, improving resolution speed and user satisfaction.

EXCELD Program

Baton Rouge, LA

Tutor

January 2023 - December 2025

- Facilitated one-on-one and group tutoring sessions, supporting students' diverse learning styles.
- Participated in weekly tutor training sessions and peer evaluations to enhance teaching methodologies.
- Successfully balanced tutoring commitments with concurrent employment and full course load.

Apleona Ireland

Dublin, Ireland

UI/Design Contributor

June 2025 - August 2025

- Collaborated with a 5-person international team in an Agile/Scrum environment to improve the visual design.
- Conducted competitive research on industry platforms to identify UX trends and inform design decisions presented to stakeholders.
- Created workflow diagrams and data visualizations in Excel to communicate research findings..

PROJECTS

Bees Vs. Plants - <https://HUDSONM.itch.io/bees-vs-plants>

- Built a wave-based tower defense game solo in Unity in two weeks, implementing cushion enemy AI, wave progression logic, and a full UI system..

NatureBoy - <https://HUDSONM.itch.io/natureboy>

- Developed a procedurally generated rogue-like solo in Unity for Jame Gam #47, featuring dynamic room generation and complete gameplay loop.
